12 April 2021

Dear Valued Customer,

The raw material situation for several of our adhesive polymers is extremely critical due to force majeure declarations and other interruptions to the supply chain. We are doing everything we can to secure supply but in some cases, we don't have confirmation of ship dates. Order controls and allotments have been implemented by some suppliers. Many other components are available at extended deliveries and increased prices. As a result, please confirm your price and ship dates through the spring and early summer. We thank you for your support, patience, and understanding during this difficult time until the situation improves. Please contact your customer service representative for more specific information.

Thank you.

John Mahn, Jr.
President
